---

## **DISCLAIMER:**

### **Prior to Installation**

Read the manual prior to installation. Technical knowledge is necessary for installation. Please ensure you use the correct tools to avoid damage to the vehicle or product.

***Connects2 can not be held responsible for the installation of this product.***

### **Technical Support**

Connects2 want to provide a fast and suitable resolution should you encounter any technical issues. With this in mind, when contacting Connects2, try to provide as much information as possible. This will speed up the process and help us to help you.

**Please use our dedicated online technical support centre: [support.connects2.com](http://support.connects2.com)**

- Brake light camera
- Instructions

**NB: CAM-RCA1 extension cable is required for installation, not supplied**

## INSTALLATION

---

1. Remove the third brake light from the vehicle and unplug the connection cable
2. Connect the CAM-VW8 to the CAM-RCA1 extension cable, then attach it to the vehicle taking care not to trap any cables
3. Connect the Black wire to a suitable ground and connect the Red wire to the reversing light circuit or an interface which provides a reverse signal
4. Connect the camera to the display screen via the Yellow RCA connector and ensure that the image is displayed correctly
