GRIP

GRIP

Easy Grip® is a **NEW GENERATION** of easy to fit, high performance, composite snow chains

- Its exclusive structure, coated with 150 steel clips, guarantees an optimal driveability on snow and on ice, with a front or a rear-wheel drive while breaking or cornering.
- **Easy Grip®** is compatible with both ABS and ESP devices, and does not generate any excess noise or vibration during use.
- It adapts to all cars taking a standard snow chain and guarantees quick fitting, especially on cars with a reduced wheel house.
- **Easy Grip®** is equipped with the Night Vision Security system, increasing lateral car visibility in the dark.
