[WWW.KNFILTERS.COM](http://WWW.KNFILTERS.COM)®

**SUPERIOR AIRFLOW.  
SUPERIOR PERFORMANCE.®**

# THE BRAND NEW INTAKE SYSTEM

## UNIVERSAL APPLICATION

- LIGHTWEIGHT AND HIGH FLOW DESIGN IN SMALL PACKAGE SPACE
- UNIQUE INVERSE RADIUS DESIGNED TO INCREASE VOLUMETRIC EFFICIENCY
- EASY SERVICEABLE AND LOW MAINTENANCE
- 1/4" (6.35mm) NPT ADAPTOR CONNECTION FOR BREATHER VENTS OR TEMPERATURE SENSORS
- ACCESSORIES (AVAILABLE SEPARATELY):

Vent adaptor kit (#A2053-RC5052) includes 5 different vent sizes

Universal installation kit (#85-6004) includes L-bracket, saddle bracket, hose clamp and mounting hardware

## K&N® EUROPEAN (EU) CATALOG

### What you will find in this catalog

This K&N® Catalog was created solely as a list of automotive air filter applications for the European market. This includes replacement air filters, Cabin air filters, oil filters, 57s kits, and 4 styles of open air filter kits. What you will not find in this catalog are our Powersports applications or the majority of domestic (USA) automotive air filter applications. For those, see the appropriate K&N® Catalog or our web site: [www.knfilters.com](http://www.knfilters.com).

### Using this catalog

To use this catalog most effectively, we kindly advise you to first read this section and refer to it when in doubt about anything in the application list.

The applications in this catalog are listed by vehicle make, model, engine characteristics and model year successively. After these, a filter part number is listed. If necessary, comments are added to specify any details to determine if the filter listed is suitable; comment 'All' is listed if no details apply.

Vehicle make and models are listed in alphabetical order; numbers come before letters and are listed in ascending order.

Engine characteristics include engine displacement and fuel system. Within a vehicle make and model, petrol engines are listed before diesel engines, and they are both listed in ascending order of engine capacity. In most cases, we follow the manufacturer's listed engine displacement, even if it is a technically incorrect rounded-off number. Petrol engines include both carburetor- and fuel injection models in the replacement element section.

Model years listed are full years (January to December), unless otherwise specified in the 'Comments' column.

An attempt was made to eliminate as much redundant information from the application list as possible. When the comments read 'All' for a certain application, this means that the filter listed fits any version of that engine type, including variants such as Turbo, 16v, TDi etc., and also all different horsepower variants of the same engine where applicable. Only when it is necessary to distinguish between two different filters for an engine with the same basic characteristics, a comment is listed.

General abbreviations used in the application list are explained in the legend in the next column on this page; vehicle-specific ones such as TDi are not in the legend.

For all questions regarding applications and K&N® products, please see our website: [www.knfilters.com](http://www.knfilters.com), or contact us at [eindhoven.tech@knfilters.com](mailto:eindhoven.tech@knfilters.com).

Your European K&N Team

# REPLACEMENT HIGH-FLOW AIR FILTERS™

DESIGNED TO IMPROVE  
ENGINE POWER

K&N® High Flow Replacement Air Filters are designed to fit right into the standard OEM airbox and to increase airflow. Each K&N® filter comes with the K&N Million Mile Limited Warranty®, and can last as long as 80.000 km between cleanings, depending on the driving conditions. Please take good notice of any notes in the comment column, which specify important details about the application; see legend for explanation of abbreviations.

If your car is not listed here, please see our website: [www.knfilters.com](http://www.knfilters.com) or contact us at [eindhoven.tech@knfilters.com](mailto:eindhoven.tech@knfilters.com) for the latest additions to our application list.

# WASHABLE CABIN AIR FILTERS

BREATHE CLEANER AIR  
INSIDE YOUR VEHICLE!

- Cleans and Freshens Incoming Air
- Helps Control Odours
- Helps Capture Most Mould, Mildew, Fungus, Spores, Bacteria, Germs, Pollen and Allergens
- Electrostatically Charged to Hold Dirt and Dust
- Factory Fit – Pre-Treated and Ready to Install
- Easy to Clean and Reuse

Cleans easily with the K&N® Refresher™ cabin air filter cleaning kit (#99-6000)  
Simply spray on the specialized cleaner, rinse, and refresh the filter with our protection treatment.

# PERFORMANCE AIR INTAKE SYSTEMS

## 57S PERFORMANCE AIRBOX®

### THE WORLD'S BEST AIR FILTER™

The 57S Performance Airbox™ features a washable and reusable oversized conical K&N® High-Flow Air Filter™.

### COMPLETE AIRBOX ASSEMBLY

Replaces the factory air filter housing with a fully enclosed injection moulded air box to reduce sound and cool air. The airbox comes with a removable lid for servicing and a custom engineered Velocity Stack (Velum) designed to smooth and straighten airflow for added power.

### GUARANTEED HORSEPOWER

Aerodynamically designed to increase airflow and reduce turbulence, providing up to three times the power gains from a K&N® Replacement Air Filter alone.

### EASY INSTALLATION

Specifically engineered to use factory holes and mounting points so no additional hardware, cutting or drilling is required.

### K&N 10-YEAR/MILLION MILE LIMITED WARRANTY™

The entire airbox assembly is built to last for the life of your car.

### TÜV COMPLIANT

Fully complies with the latest TÜV emissions and sound regulations.

**GUARANTEED TO INCREASE  
HORSEPOWER**

# PERFORMANCE INTAKE SYSTEMS

## 57i<sup>®</sup> HIGH-FLOW INTAKE KITS

- Affordable Kits for Replacing Your Factory Airbox
- Designed to Improve Horsepower & Acceleration
- Includes a Washable/Reusable K&N<sup>®</sup> High-Flow Air Filter™
- Dramatically Reduces Intake Tract Restriction by Replacing the OE Air Filter & Air Box
- Easy to Install – In 90 Minutes or Less
- Application Specific Design
- K&N 10-Year/Million Mile Limited Warranty™
- Fully complies with the latest TÜV emissions and sound regulations.

The 57i<sup>®</sup> High-Flow Intake Kit is an entry level K&N<sup>®</sup> open air filter intake system for vehicles equipped with a fuel injected petrol or a diesel engine. A 57i High-Flow Intake Kit comes with a K&N<sup>®</sup> High-Flow Air Filter™. This complete kit replaces the OE air box, resulting in an increased air flow and hence an increased engine performance.

Each 57i-kit is developed for a specific application; therefore, each kit includes all necessary brackets, hardware and clear, illustrated installation instructions to help you fit the filter to your car using common hand held tools. When needed, the kit includes a cold air feed hose, a custom designed intake tube or MAS adaptor. It is for this reason that some applications have additional notes in the 'comments' column; where specified, the kit only fits the indicated version of the car, or excludes a specific version. Please do not attempt to install any kit on an application not listed to prevent any problems. When in doubt about the application or looking for new applications, please see our website: [www.knfilters.com](http://www.knfilters.com) or contact us at [eindhoven.tech@knfilters.com](mailto:eindhoven.tech@knfilters.com).

## 69 Series TYPHOON INTAKE SYSTEMS

- Guaranteed Horsepower
- Includes a Washable/Reusable K&N<sup>®</sup> High-Flow Air Filter™
- Easy to Install – In 90 Minutes or Less
- Dramatically Reduces Intake Tract Restriction by Replacing the Air Filter & the Entire Air Path to the Engine
- Some Kits Include Custom Heat Shield
- K&N 10-Year/Million Mile Limited Warranty™
- Utilizes Stainless Steel Hardware & 6063 Mandrel Bent Aluminium Tubing
- DryChargers Available on Cold-Air & Complete Cold Air Applications
- Available in High Quality Powder Coated Finishes
- Fully complies with the latest TÜV emissions and sound regulations.

### Styles:

**SR:** Short Ram. The Kits contain one intake tube and the air filter is placed within the engine bay. Some application include a custom heat shield.

**CA:** Cold Air Intake. The Kits contain 1 or 2 intake tubes to extend the air path into the area outside the engine bay to ingest cold air. For example the front bumper area.

**CCA:** Complete Cold Air Intake. The Kits contain at least 2 intake tubes to extend the air path into the area outside the engine bay to ingest cold air. For example the front bumper area. Key feature of the CCA is that it may be converted into an SR-kit if desired (for example: when driving in bad weather conditions in winter time) by removing the cold air extension tube.

### Colours:

**TB:** Blue Powder Coating, **TP** or **KP:** Polished Aluminium, **TR:** Red Powder Coating, **TS** or **KS:** Silver Powder Coating, **TWR:** Wrinkle Red Powder Coating, **TFK** or **TTK:** Flat Black Powder Coating, **TWK:** Wrinkle Black Powder Coating.

We are constantly expanding our Typhoon application range. For the latest applications see our website: [www.knfilters.com](http://www.knfilters.com) or contact us at [eindhoven.tech@knfilters.com](mailto:eindhoven.tech@knfilters.com).

VOLKSWAGEN

VOLKSWAGEN • VOLVO

**WRENCH-OFF**  
PERFORMANCE OIL FILTERS

CELLULOSE/SYNTHETIC MEDIA  
TRAPS 99% OF HARMFUL PARTICLES

HIGH-FLOW DESIGN HELPS  
REDUCE ENGINE DRAG

PRE-DRILLED SAFETY  
WIRE ATTACHMENT

STURDY 1 INCH NUT  
FOR EASY REMOVAL

EXTRA-STRENGTH  
CANISTER TWICE  
AS THICK AS THE  
LEADING BRAND

ANTI-DRAINBACK VALVE

PRE-LUBED BASE SEAL

- Welded Nut for Easy Removal
- Premium Synthetic Blend Media Provides Outstanding Filtration at High Flow Rates
- Heavy Gauge Canister with Leak-proof Double-Rolled Seams
- Designed for Extra Durability and Higher Burst Strengths
- Specially Designed for Today's Synthetic and Extended Service Oils

UNIFORM PLEATS  
PROVIDE AN INCREASED  
SURFACE AREA  
OVER OEM FILTERS

**PERFORMANCE  
WRENCH-OFF®  
OIL FILTERS**

Originally developed for demanding race vehicles, our premium Wrench-Off® Oil Filter is rapidly becoming a favorite among consumers for its durability and easy removal. They are engineered to perform under extreme conditions, and are even used on top-fuel dragsters that produce up to 8,000 horsepower!

# POWERSPORTS AIR AND OIL FILTERS

## RACE PROVEN PERFORMANCE

### K&N® HIGH FLOW™ AIR FILTERS

- Replaces the Original AIR Filter
- Engineered to fit the Original Airbox
- No Modification Required
- Backed by K&N's Famous Million Mile Warranty

### WRENCH-OFF™ PERFORMANCE OIL FILTERS

- 17mm wrench nut for easy removal
- Pre-drilled for safety wire security
- Modern synthetic-blend filter media
- Designed for high-performance engines
- Unaffected by racing fuels
- Thick wall construction
- Strong inner core
- Heavy base plate with double-rolled seal
- Check valve prevents oil drain-back and dry starts

WASHABLE  
REUSABLE  
PERFORMANCE.

# APOLLO CIS<sup>®</sup>

## UNIVERSAL CLOSED AIR INTAKE SYSTEMS

The K&N<sup>®</sup> Apollo kit is a closed cold air intake system incorporating a washable/reusable K&N<sup>®</sup> High-Flow Air Filter™. The Apollo's shell reduces heat build-up feeding only cool air to your engine, resulting in improved volumetric efficiency and increased power gains. Apollo is ideal for normally aspirated engines up to 250BHP and turbo engines up to 350BHP. It allows for updating your intake system while retaining a closed environment. Each Apollo kit is developed for a specific application; therefore, each kit includes all necessary brackets, hardware and clear, illustrated installation instructions to help you fit the filter to your car using common hand held tools. Some applications have additional notes in the "comments" column; where specified, the kit only fits the indicated version of the car, or excludes a specific version. Please do not attempt to install any kit on an application not listed to prevent any problems. When in doubt about the application or looking for new applications, please see our website: [www.knfilters.com](http://www.knfilters.com) or contact us at [eindhoven.tech@knfilters.com](mailto:eindhoven.tech@knfilters.com).

## **K&N® 56 SERIES CARBURETTOR BOLT-ON FILTERS**

In this section, you will find a variety of Bolt-On Units to replace the entire OE air box on many European cars. The Bolt-On Unit can be regarded as an intake kit for carburettor-equipped cars. However, since carburettor cars do not have any sensors or an engine management system to adapt to the greater air flow the Bolt-On Unit provides, it will be necessary to change the carburettor's jets accordingly to obtain the correct air/fuel ratio. K&N® does not supply jets, nor does K&N® have an archive of useful jet settings for specific applications. For your convenience, we list the K&N® element used in the Bolt-On as well; these elements may in many cases also be used as the replacement for the OE filter if there is no replacement element listed for your car in the replacement element section. When only replacing the OE air filter, re-jetting is not necessary, but it would seem sensible to re-adjust the carburettor(s) after installing. If any doubt exists if an element or Bolt-On is suitable for your specific application, do not hesitate to contact us at [eindhoven.tech@knfilters.com](mailto:eindhoven.tech@knfilters.com) providing us all the relevant vehicle and OE filter details.

This section only lists the most common products and applications; please contact us at the aforementioned e-mail address if you are looking for something not listed, like racing-only air boxes or USA-carburettor applications, or use our website: [www.knfilters.com](http://www.knfilters.com).

The „Small Oval“ Units maximal outside dimensions are 182x120 mm, the „Large Oval“ Units are 228x135 mm. Each of the below ‚56‘ part numbers fit 1 carburettor, so for double carburettors 2 pieces are required etc. In case of multiple carburettors, make sure there is enough space between them to fit the filters. Also check bonnet clearance using pillars of plasticine on the carburettor and closing the bonnet.

Make & Model	Style	assembly Height	Bolt-On Unit	Comments	Element

## **MOBILE & AUXILIARY POWER EQUIPMENT AIR FILTERS**

**HYBRID HEAVY-DUTY AIR FILTERS FOR GENERATORS,  
LANDSCAPE EQUIPMENT, REFRIGERATION UNITS AND MORE  
ARE WASHABLE AND REUSABLE AND REQUIRE NO OIL!**

K&N® offers air filters for many types of mobile and auxiliary power equipment using our new durable Hybrid Air Filtration Medium for Heavy-Duty use. These filters are made from a non-woven synthetic material designed to be used dry with no oil required. This makes these air filters very easy to clean using power washers, pressure sprayers or hose nozzles. Our Hybrid filter has a lofted three-dimensional feature which adds depth loading and large dust Heavy-Duty holding capacities.

## NEW TECHNOLOGY FOR K&N® HYBRID DRY AIR FILTERS

K&N, the inventor of High-Flow Air Filters adopted some of the best elements of cotton air filters into a new generation Hybrid Dry Air Filter. This new three-dimensional filtering medium uses both depth loading and structural screen wire to enhance airflow capabilities and make the filter incredibly easy to clean. The result is a true performance air filter capable of increasing horsepower and torque and so much more!

### HYBRID DRY AIR FILTER MEDIA

- Hybrid Dry Air Filter synthetic media - no oil required
- Thicker 3D media for increased airflow and higher capacity
- Aluminium screen wire adds strength and smoothens and straightens airflow
- LIFETIME LIMITED WARRANTY

## INCREDIBLY EASY TO CLEAN

There is no oil required and the filter does not have to be completely dry before re-installation. Just spray on our special Hybrid Dry Air Filter degreaser and 10 minutes later, flush out the dirt. You can use pressure washers, power sprayers, compressed air, or garden hose nozzles to spray off the dirt.

### EASILY CLEANS WITH:

- Pressure Washer
- Compressed Air
- Garden Hose
- Shop-Vac with Soft Bristle Attachment

K&N® SYNTHETIC AIR FILTER CLEANER  
Part Number 99-0624

SPRAY ON DEGREASER

## **UNIVERSAL CLAMP-ON AIR FILTERS**

K&N® Universal air filters are designed and manufactured for a wide variety of applications. Regardless of the angle, offset, or diameter of the air intake, there is probably a K&N® Universal air filter available for your equipment. All filters are constructed with ultra-strong moulded pliable rubber flanges which absorb vibration and allow for secure attachment, and can also be stretched up to 1/16" (1.5mm) to fit in-between sizes. K&N® Universal air filters are available in round, tapered and oval designs, for just about any special application.

Round Straight

When selecting one of K&N's universal round straight air filters, you should consider the following dimensions as they relate to the specification chart:

(F) Mounting Flange Inside Diameter - This is the most critical dimension and should be very close to the diameter of the application's inlet flange. The flange will stretch up to 1/16" for those in-between sizes.

(D) Filter Diameter - This is the overall diameter of the filter. Always use the largest diameter practical for maximum filtration.

(L) Filter Length - This dimension is the length of the filter body only, it does not include the flange length. Always use the longest filter practical for maximum filtration.

(FA/FL) Flange Angle and/or Length - If no angle is listed in the specifications table, then the flange is straight. Any angle listed is in degrees and can be utilized when space is a problem.

(FO) Flange Offset - In some cases the center of the flange is offset from the center of the filter base in order to provide a better fit.

# K&N® UNIVERSAL CHROME AIR FILTERS

## RG-1003RD-L RED

- Designed to Improve Horsepower
- Real Multilayer Cotton Gauze
- Promotes High Airflow and Excellent Filtration
- Available in Red
- Includes Adjustable Flange Inserts 57mm, 64mm and 70mm

THE ORIGINAL PERFORMANCE FILTER OF NASCAR

1) Filter has molded-in velocity stack. 2) Metal top plate has 1/4-20 stud. 3) Metal top-plate has 6MM stud. 4) Base has 1/2" vent standard. 5) Base has optional 1/2" vent. 6) Base has 5/8" vent standard. 7) Offset is vertical. 8) Offset is vertical and to the right. 9) Offset is vertical and to the left. 10) Offset is horizontal. 11) Colors available: PL=blue, PR=red, PY=yellow. 12) Foam Pro-filter. 13) Colors available: DL=blue, DR=red, DY=yellow. 14) Refer to Filter Wrap Section. 15) Refer to Custom End Cap/Stream Clamp-On Sec. 16) Filter is reverse tapered. 17) Base has 1/4" vent standard. 18) Base has 7/16" vent standard. 19) Base has 3/16" vent standard. 20) 1/4-20 Jack Nut inserted into Filter Top. 21) Base has 3/8" vent standard. 22) Base has 9/16" vent standard. 23) Base has 3/4" vent standard. 24) Base has 13/16" vent standard. 25) Base has 7/8" vent standard. 26) Top has 1/2" vent standard. 27) Top has 7/16" vent standard. 28) Carbon Fiber Top Plate. 29) Black Powder Coated Top Plate. 30) Top has 23/32" center hole. 31) Top has 21/32" center hole. 32) Fits "Legend/Dwart" race cars w/FJ1200 motors. 33) Galvanized Top Plate. 34) Base has 13/32" vent standard. 35) Top has two G-400" vents.

Round Tapered

When selecting one of K&N's universal round tapered air filters, you should consider the following dimensions as they relate to the specification chart:

(F) Mounting Flange Inside Diameter - This is the most critical dimension and should be very close to the diameter of the application's inlet flange. The flange will stretch up to 1/16" for those in-between sizes.

(D) Filter Diameter - This is the outside diameter of the filter. Always use the largest diameter practical for maximum filtration.

(L) Filter Length - This dimension is the length of the filter body only, it does not include the flange length. Always use the longest filter practical for maximum filtration.

(FA/FL) Flange Angle and/or Length - If no angle is listed in the specifications table, then the flange is straight. Any angle listed is in degrees and can be utilized when space is a problem.

(FO) Flange Offset - In some cases the center of the flange is offset from the center of the filter base in order to provide a better fit.

Oval Straight

When selecting one of K&N's universal oval air filters, you should consider the following dimensions as they relate to the specification chart:

(F) Mounting Flange Inside Diameter - This is the most critical dimension and should be very close to the diameter of the application's inlet flange. The flange will stretch up to 1/16" for those in-between sizes.

(MA / SA) Filter Oval Dimensions - This is the length and width of the filter. Always use the largest filter practical to fit the application.

(L) Filter Length - This dimension is the length of the filter body only, it does not include the flange length. Always use the longest filter practical for maximum filtration.

(FA / FL) Flange Angle and/or Length - If no angle is listed in the specifications table, then the flange is straight. Any angle listed is in degrees and can be utilized when space is a problem.

(FO) Flange Offset - In some cases the center of the flange is offset from the center of the filter base in order to provide a better fit.

# K&N® UNIVERSAL CHROME AIR FILTERS

- Designed to Improve Horsepower
- Real Multilayer Cotton Gauze
- Promotes High Airflow and Excellent Filtration
- Available in Red, Blue and White
- Includes Adjustable Flange Inserts 75mm, 89mm and 102mm

\*Also available in Red, Blue and White

1) Filter has mold-on velocity stack. 2) Metal top plate has 1/4-20 stud. 3) Metal top-plate has 6MM stud. 4) Base has 1/2" vent standard. 5) Base has optional 1/2" vent. 6) Base has 5/8" vent standard. 7) Offset is vertical. 8) Offset is vertical and to the right. 9) Offset is vertical and to the left. 10) Offset is horizontal. 11) Colors available: PL=blue, PR=red, PY=yellow. 12) Foam Pre-filter. 13) Colors available: DL=blue, DR=red, DY=yellow. 14) Refer to Filter Wrap Section. 15) Refer to Custom End Cap/Stream Clamp-On Sec. 16) Filter is reverse tapered. 17) Base has 1/4" vent standard. 18) Base has 7/16" vent standard. 19) Base has 3/16" vent standard. 20) 1/4-20 Jack Nut inserted into Filter Top. 21) Base has 3/8" vent standard. 22) Base has 9/16" vent standard. 23) Base has 3/4" vent standard. 24) Base has 13/16" vent standard. 25) Base has 7/8" vent standard. 26) Top has 1/2" vent standard. 27) Top has 7/16" vent standard. 28) Carbon Fiber Top Plate. 29) Black Powder Coated Top Plate. 30) Top has 23/32" center hole. 31) Top has 21/32" center hole. 32) Fits "Legend/Dwar" race cars w/FJ1200 motors. 33) Galvanized Top Plate. 34) Base has 13/32" vent standard. 35) Top has two G.40G" vents.

SPECIALTY AIR FILTERS

SPECIALTY AIR FILTERS

When selecting one of K&N's universal dual flange air filters, you should consider the following dimensions as they relate to the specification chart:

(F) Mounting Flange Inside Diameter - This is the most critical dimension and should be very close to the diameter of the application's inlet flange. The flange will stretch up to 1/16" for those in-between sizes.

(MA / SA) Filter Oval Dimensions - This is the length and width of the filter. Always use the largest filter practical to fit the application.

(L) Filter Length - This dimension is the length of the filter body only, it does not include the flange length. Always use the longest filter practical for maximum filtration.

(FA / FL) Flange Angle and/or Length - If no angle is listed in the specifications table, then the flange is straight. Any angle listed is in degrees and can be utilized when space is a problem.

(FO) Flange Offset - In some cases the center of the flange is offset from the center of the filter base in order to provide a better fit.

(C-C) Flange Center to Center - For dual flange filters, this is the flange spacing. This dimension should be within 2mm for proper fit on the application.

(F) Mounting Flange Inside Diameter		(MA/SA) Filter Base Dimensions		(MA/SA) Filter Top Dimensions		(L) Filter Length		(FL) Flange Length		(FA) Flange Style	(FO) Flange Offset	(C-C) Flange Ctr to Ctr		Rubber End Cap Part #	Chrome End Cap Part #	Filter Wraps Part #

## RECHARGER® FILTER CARE SERVICE KIT (AEROSOL)

This six-step maintenance system is designed to recharge any K&N® Filtercharger Air Filter. It restores air flow efficiency so your Filtercharger performs virtually like new!

DESCRIPTION	Part
Includes 204 ml spray oil (EN, ES, SV, PL, CS)	99-5000EU
and 355 ml filter cleaner (DE, FR, NL, IT, PT)	99-5003EU

## K&N® FILTERCHARGER® OIL

K&N® Air Filter Oil is the only oil specially formulated to work in combination with the cotton fabric in K&N® Filtercharger elements providing outstanding air filtration. When used as directed, it quickly penetrates the filter pleats, where it remains suspended in the cotton fabric until the element is cleaned with K&N® Air Filter Cleaner.

DESCRIPTION	Part
204 ml aerosol can (EN, ES, SV, PL, CS)	99-0504EU
(DE, FR, NL, IT, PT)	99-0506EU
408 ml aerosol can (EN, ES, SV, PL, CS)	99-0516EU
(DE, FR, NL, IT, PT)	99-0518EU
237 ml squeeze bottle	99-0533*
15 ml pillow pack	99-11312*
3.8 l refill bottle	99-0551*
19 l pail	99-0555*

## K&N® CLEANER & DEGREASER

K&N® Air Filter Cleaner is the only cleaner formulated to clean K&N® Filtercharger elements. The use of any other cleaning solution can void the filter's warranty, and quite possibly could damage your engine and the filter's cotton material. K&N® Air Filter Cleaner works to dissolve dirt built up and the old filter oil can be washed away with water. It is environmentally friendly and safe on paint, chrome, cast aluminium, plastic, rubber and vinyl when used as directed. Complete instructions on bottle.

**Note:** Do not use on polished or anodized aluminium.

DESCRIPTION	Part
355 ml squirt bottle (EN, ES, SV, PL, CS)	99-0606EU
(DE, FR, NL, IT, PT)	99-0608EU
946 ml squirt bottle (EN, DE, FR, ES, NL, IT, PT, SV, PL, CZ)	99-0621EU
3.8 l refill bottle	99-0635*
19 l pail	99-0640*

## SYNTHETIC FILTER CLEANER

Cleaner for K&N® Hybrid air filters, K&N® Blackhawk air filters, Dryflow air filters and other synthetic air filters.

DESCRIPTION	Part
355 ml filter cleaner	99-0624

## CABIN AIR FILTER CLEANING KIT

Cleans easily with the K&N® Refresher™ cabin air filter cleaning kit

DESCRIPTION	Part
355 ml squirt bottle	99-6000

## K&N® SEALING GREASE

K&N® Air Filter Sealing Grease provides an air tight fit around sealing surfaces on all types of air filter elements. It resists heat and will not melt or run off.

**Note:** K&N® Air Filter Sealing Grease is not to be used on clamp-on filter elements

DESCRIPTION	Part
177 ml squeeze tube	99-0704*
30 ml squeeze tube	99-0703-1*

## RECHARGER FILTER CARE SERVICE KIT

Same as 99-5000 except has squeeze oil bottle instead of spray can.

DESCRIPTION	Part
Includes 237 ml Squeeze Oil,	99-5050*
355 ml Filter Cleaner and Service Decal	

\* packaging according to US regulations

# AIR FILTER SERVICE INSTRUCTIONS

## 1. APPLY CLEANER

**FOLLOW ALL SAFETY INSTRUCTIONS ON THE K&N® AIR FILTER CLEANER BOTTLE. IT IS RECOMMENDED TO UTILIZE K&N'S 32oz PUMP SPRAY CLEANER (P/N 99-0621) WHEN SERVICING LARGE OR DIESEL APPLICATION K&N® AIR FILTERS.**

Spray K&N® Air Filter Cleaner onto both sides of the air filter until it completely saturates the pleated material.

- A. Apply K&N® Air Filter Cleaner to clean side of filter
- B. Apply K&N® Air Filter Cleaner to dirty side of filter

Allow cleaner to soak into both sides of air filter for 10 minutes to loosen the dirt.

Do not let cleaner dry on air filter.

**CAUTION: THE USE OF ANY OTHER CLEANING SOLUTION OR METHOD COULD DAMAGE THE FILTER!**

## 2. RINSE

Rinse off air filter with cool low-pressure water. Allow gravity to flush dirt out of air filter by applying water to the clean side of the filter; up and down the length of the pleats. Continue to rinse the filter until all traces of cleaner are gone. If the filter is extremely dirty it may be necessary to repeat steps 1 and 2. If there are spots of dirt remaining on the filter, spray each spot directly with cleaner, allow a few minutes for it to soak and repeat rinsing step.

## 3. DRY

After rinsing, gently shake off excess water and allow filter to dry naturally. Do not proceed to the oiling step until the filter is completely dry.

**CAUTION: THE USE OF ANY OTHER DRYING METHODS (I.E. COMPRESSED AIR, RYER HEATERS, HEAT GUNS) COULD DAMAGE FILTER.**

## 4. OILING

**RECOMMENDATION: FOR BEST RESULTS USE K&N® AIR FILTER OIL.**

Apply K&N® Air Filter Oil liberally to the dirty side of the filter only. This will allow for a visual reference of complete coverage.

- A. If using a K&N® squeeze bottle, squeeze bead of oil along the crown of each pleat using the lip on the squeeze bottle tip as a guide. Utilize graduated view strip on bottle to dispense proper amount of oil.
- B. If using a K&N® aerosol spray, spray an even amount of oil along the crown of each pleat. Wait 20 minutes for the oil to be absorbed into the filter media. Inspect the clean side of the filter for any areas that are lighter in color. Touch up these areas in the media by applying oil to the dirty side of the filter. Continue oiling procedure until there is an even red color over the entire surface of the clean and dirty side of filter.

## 5. FILTER INSTALLATION

Before reinstalling filter back into vehicle, inspect it for damage. Follow any and all specific installation instructions that came with the K&N® Air Filter.

**CAUTION: FAILURE TO FOLLOW THE K&N® INSTALLATION INSTRUCTIONS COULD LEAD TO AN IMPROPER SEAL RESULTING IN POSSIBLE ENGINE DAMAGE. PLEASE VISIT WWW.KNFILTERS.COM FOR AIR FILTER INSTALLATION INSTRUCTIONS FOR YOUR VEHICLE.**
