

MOTIP Diesel System Cleaner Plus

Ord.-no.: 090640

Technical Information

Reliably remove contamination in the entire fuel system of your car's diesel engine caused by operation from the tank to the combustion chamber with MOTIP Diesel System Cleaner Plus. Diesel System Cleaner Plus is a high-performance product for use in all diesel engines, particularly developed for high-pressure direct injection diesel engines with common-rail technology or pump injectors. Especially recommended for extended service intervals. Absorbs and efficiently removes moisture from the diesel system and ensures effective protection of the high-pressure pump. Provides optimal fuel atomization, lasting lubrication and protection of all fuel-carrying parts. Suitable for vehicles with diesel particulate filters.

Quality & properties

- Increased compression
- Improved engine performance
- Reduced fuel consumption and exhaust emissions

Physical & chemical data

- Colourname: Transparent
- Vapour pressure: 0,2/50 bar
- Flash point: 46 °C
- Content: 300 ML

How to use

- Before use, carefully read the directions on the packaging and act accordingly.
- Add to the fuel tank before filling up. One can (300 ml) is sufficient for up to 80 liters of diesel. For larger capacities add 50 ml per 10 liters of fuel. Use the Diesel System Cleaner Plus at every service interval but at least once a year. Product works during operation.
- Attention: Cleaning fluid – not a fuel substitute!

Environmentally sound

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

Marking/Labeling

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.
