

MOTIP Diesel Injection Cleaner

Ord.-no.: 090641

Technical Information

Clean the injector nozzles and inlet of your car's diesel engine without dismantling with MOTIP Diesel Injection Cleaner. Carbon oil and soot deposits are properly removed. Ensures lasting lubrication of the injection pump, especially for low-sulphur diesel fuels. For use in all diesel engines. Also suitable for high-pressure direct injection diesel engines with common-rail technology or pump injectors.

Quality & properties

- Reliably removes contamination from the entire fuel system caused by operation
- Avoids formation of deposits in the injection system and at the injection nozzles
- Keeps the engine clean, ensures clean combustion and reduces fuel consumption, helping to protect the environment
- Reduces wear and tear of all injection system components, especially with low-sulphur diesel fuels, and protects against corrosion

Physical & chemical data

- Colourname: Transparent
- Flash point: 54 °C
- Content: 300 ML

How to use

- Before use, carefully read the directions on the packaging and act accordingly.
- Add to the fuel tank before filling up. One can (300 ml) is sufficient for up to 60 liters of diesel. The product works during operation.
- Attention: Cleaning fluid – not a fuel substitute!

Environmentally sound

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

Marking/Labeling

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.
