

H.O. Wedge™

High-Output Ported Systems

Position:

JL Audio's W3v3, W6v3 and W7AE subwoofer drivers integrated into a variety of ported systems, optimized to deliver very high output and great sound quality.

FEATURES:

- Patented, chamber-coupled port designs minimize turbulence and maintain excellent sound quality at all listening levels.
- High-quality gray and black carpet with embroidered logo
- Recessed baffle provides woofer protection (W3v3 models also feature solid aluminum bar grilles).
- Gold-plated, five-way binding post terminal
- Enclosures and Subwoofer Drivers Built in USA
