

MBT

Weatherproof Bluetooth® Solutions

POSITION:

Easily add Bluetooth® audio streaming capability to almost any system!

MBT-CRXv2:

Weatherproof Bluetooth® Audio Controller & Receiver (shown with adaptor plate above)

MBT-RX:

Weatherproof Bluetooth® Audio Receiver (below)

SELLING POINTS:

#1 Compact, All-Weather Solutions

- True water resistance rating (IPX6 or better)
- Ideal for challenging Marine and Powersports applications
- Available in two great options:
 - MBT-RX Bluetooth® Receiver - Installs out-of-sight, almost anywhere.
 - MBT-CRXv2 Bluetooth® Controller & Receiver - Single hole mounting design installs easily into flat panels. Includes square adaptor plate for easy front mounting or where rear access is limited or not possible.

#2 Wirelessly receive audio from your favorite Bluetooth® device

- Simple pairing procedure
- Auto-reconnect after initial pairing
- Your connected device controls playback and volume.
- A2DP Bluetooth® Streaming Audio (v4.0)
- 35 ft. (11m) range wireless range
- MBT-CRXv2 adds large, LED backlit, push-button controls so your streaming device can be safely tucked away.

#3 Crystal-Clear Connectivity

- Qualcomm® aptX™ audio codec delivers top-quality sound from compatible devices.
- Stereo RCA-type outputs (2V RMS) connect directly to an amplifier with line-level inputs as a sole audio source or connect them to a source unit's auxiliary inputs.
- Power Connections: +12V (switched) with 2A inline mini-ATC fuse, Ground
- MBT-CRXv2 includes a +12V remote turn-on output for amplifier control.
