

## BUFFALO

### 2 ARMS TOW BALL BIKE CARRIER

**BUFFALO**, a gentle looking and also strong, solid and reliable, just what you need from a tow bar bike carrier. The Buffalo is really a decent piece as well as being the best designed and most user friendly bike carrier. Better design, better quality, better safety, overall ease of use.

- Available in 4 bike version.
- The patented conical tow ball clamp fits onto all ISO 50mm diameter tow balls. Simple and fast.
- Easy accessible pedal can tilt down and far enough for gate access even with bikes on.
- The bike frame holders can be adjusted in position and have soft padded cradles and ratchet strap to secure bikes.
- The integrated locking cable assures a secure transportation.
- The short distance between support arms will suit the majority of modern frames.
- Velcro-fastened foam pad sleeve on the upright tube to protect the first bike.
- The bike holder arms can be folded for storage, or when the vehicle is parked up.
- The build quality - tube bending, welding, rust proofing, painting, component quality, is exemplary. All tools you might need are provided.
- Test complied with XP norm R18-940-4.
- Supplied fully assembled.

S=40kg minimum	1 x
S=50kg minimum	2 x
S=65kg minimum	3 x
S=80kg minimum	4 x

Useful information: The maximum permitted load you can carry is also determined by the tow bar nose weight; you will need to check you don't exceed this before using any tow ball mounted bike carrier.  
 Requires 65mm clearance from centre of tow ball to rear of vehicle.  
 A lighting board will be needed.  
 Please note that if your vehicle has a rear mounted spare wheel this Buffalo rack is not suitable.
